

# SWEETIE CHERRY TOMATO

Days to Maturity: **65 DAYS**

**Super sweet red cherry tomato with high sugar content for eating right off the vine!**

Masses of 1-1.5" round cherries in long clusters. Firm texture similar to grape tomatoes; ideal for eating fresh or canning. Impressive vigor and reliability, ripening first and perfectly during six weeks of rain and cold - an absolute standout!

- Indeterminate
- .5-1 oz fruit
- Heirloom

*For detailed growing info visit [High Mowing Seeds webs.](#)*

# BLACK CHERRY TOMATO

Days to Maturity: **64 DAYS**

**Round, full-flavored cherry with distinctive purple-black color.**

One-inch fruits with the juicy, meaty texture and sweet, rich flavor characteristic of all Russian black tomatoes. A striking addition to cherry tomato mixes. Very productive plants.

- Indeterminate
- Prolific
- 1-1.5 oz
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# BRANDYWINE TOMATO

Days to Maturity: **82 DAYS**

**Big, beautiful fruits that first brought recognition to the term heirloom.**

Well known and loved for its perfect flavor balance of sugars and acids. Delicious, deep rose-scarlet flesh is smooth and incredibly juicy. Pick just before ripe to avoid cracking. Potato-leaf variety.

- Indeterminate
- 16 oz fruit
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# CHEROKEE PURPLE TOMATO

Days to Maturity: **72 DAYS**

Large beefsteak fruits with mauve-purple skin, green shoulders and red flesh.

The most popular of the "black" tomatoes for its outstanding flavor and texture. Widely grown by gardeners and market growers alike. Believed to trace back over 100 years to the Cherokee tribe.

- Indeterminate
- 12-16 oz fruit
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# GERMAN JOHNSON TOMATO

Days to Maturity: **75 DAYS**

**High yielding, vigorous plants with deep pink fruits bearing earlier than other Brandywine-types.**

Medium-sized fruits are crack resistant, have few seeds and are good for slicing, cooking, or canning. Fruits are acidic with a creamy texture and exceptional flavor.

- Indeterminate
- 8-16 oz fruit
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# MOONBEAM GRAPE TOMATO

Days to Maturity: **68 DAYS**

**Glowing white, translucent grape tomato with oblong frame and delicious, fruity bite.**

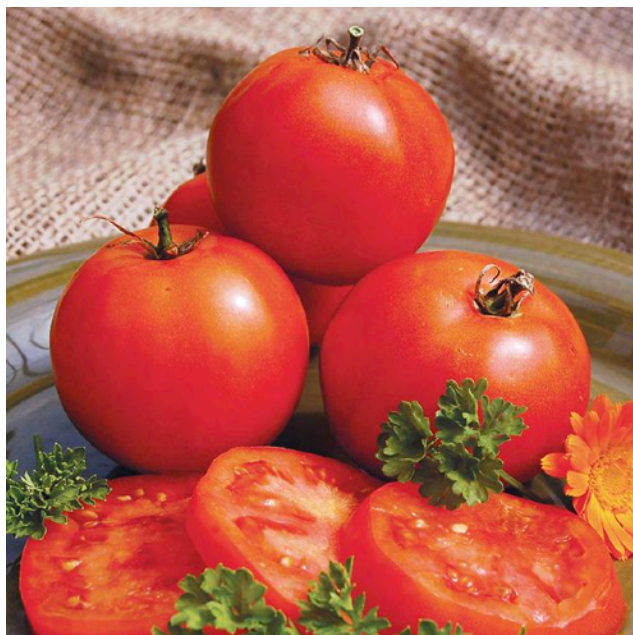

This remarkable tomato has dramatic visual appeal, especially when added to a small tomato mix. Not only are these white grape tomatoes stunningly unique, they are packed with a tasty punch of unbeatable flavor. Ideal for the tomato grower seeking a fruit with both style and exceptional eating quality.

- Indeterminate
- .4 oz fruit
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# MOUNTAIN PRINCESS TOMATO

Days to Maturity: **68 DAYS**

Perfectly rounded fruits with crowd-pleasing mild sweet flavor. Very productive and early; great for short, cool seasons.

Grown for generations in the Monongahela National Forest region of West Virginia.

- Determinate
- 8-10 oz
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# ROMA PASTE TOMATO

Days to Maturity: **65 DAYS**

**Productive plum tomato with great disease resistance!**

Vigorous and strong, producing heavy yields of picture-perfect, thick-walled fruits with deep red color and mild flavor. A good choice for a commercial variety, as well as in the garden. Determinate

- Vigorous
- 4 oz

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# ROSIE BASIL

Days to Maturity: **65 DAYS**

**Intense dark purple-red color with mild and aromatic basil flavor - a favorite in our trials!**

Tall lavender flower spikes are lovely in bouquets and should be pinched for better leaf production.

- Compact, upright habit
- Edible and ornamental
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# GENOVESE BASIL

Days to Maturity: **68 DAYS**

**Basil lovers unanimously recommend Genovese as the best variety for pesto!**

Plants are strong producers of dark green, glossy leaves with a characteristic spoon shape, exceptionally tender texture and distinctive sweet flavor excellent in sauces and cooking. 10-12" plants.

- Excellent for processing
- Field or containers
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# GOLDEN ACRE CABBAGE

Days to Maturity: **62 DAYS**

A refined, open-pollinated cabbage with round green heads encasing beautiful, tender white hearts. Plants mature early and are compact, perfect for dense plantings with tighter spacing while still producing good yields of marketable heads. Heads are round, solid, and have a delicate, crunchy flavor that is suitable for most kitchen preparations.

- Compact habit
- 3-4 lb heads
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](#)*

# ANCHO POBLANO

Days to Maturity: **68 DAYS GREEN, 88 DAYS RED**

**Mild heart-shaped chili perfect for stuffing in chiles rellenos or dried for ancho chili powder.**

Stout, dark green fruits are moderately spicy with medium-thick walls. Referred to as Poblano when used fresh and Ancho when dried for seasoning. Plants are well branched. Well adapted variety; good yields in cool conditions.

- SHU 3,000
- 4-6" fruits
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](#)*

# EARLY JALAPEÑO HOT PEPPER

Days to Maturity: **65 DAYS GREEN, 85 DAYS RED**

**Prolific yields of flavorful blunt fruits with distinctive jalapeno flavor.**

Small, moderately spicy fruits with thick walls are traditionally harvested dark green but can be allowed to ripen to red. A classic eaten fresh or pickled with Mexican dishes! Compact plants are sturdy and work well in containers.

- SHU 5,000
- 3-3.5" fruits
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](#)*

# CALIFORNIA WONDER PEPPER

Days to Maturity: **65 DAYS GREEN**

**Large, blocky, thick-walled glossy fruit that turns red quickly under a range of conditions.**

Upright, everbearing habit keeps fruit high on 24-30" plants. Suitable for shipping and freezing. Introduced by Burpee's in 1928 and still a hit today.

- Upright habit
- 3.5" fruits
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](#)*

# IKO IKO SWEET PEPPER

Days to Maturity: 65 DAYS PURPLE/  
YELLOW

Spectacular array of colors in a high yielding bell pepper. A rainbow of colors from a single variety! Immature fruits start dark purple, lavender, pale yellow and occasionally lime green, ripening to tangerine and red streaked with purple. Excellent early season color!

- Upright habit
- 3.5" fruits
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# GOLDEN CALIFORNIA WONDER PEPPER

Days to Maturity: **60 DAYS GREEN**

High yields of deep gold, thick-walled fruits that set well in cool conditions. Sturdy, upright 22-30" plants are everbearing and pendant. Very similar to California Wonder with an earlier maturity date. One of the best open-pollinated gold peppers available!

- Cool tolerant
- 4-4.5" fruits
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# SHISHITO PEPPER

Days to Maturity: **60 DAYS GREEN**

Small, mild Japanese pepper for roasting, pan-frying and grilling. Thin walls blister and char easily when roasted or grilled, taking on rich flavor that is delicious with coarse salt and lemon juice. The occasional fruit will display heat. Typically harvested and used green, but eventually turns orange and red with sweeter flavor.

- Spreading habit
- 2-4" mild fruits
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# MARKETMORE 76 CUCUMBER

Days to Maturity: **65 DAYS**

**Marketmore 76 remains the most widely-planted open-pollinated slicer in the US!**

Dark green fruits stay green and mild-tasting even under heat stress, while multiple disease resistances keep plants vigorous and highly productive across a long picking season.

- Vigorous
- 8-9" fruit
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# DARK GREEN ZUCCHINI

Days to Maturity: **50 DAYS**

**Vigorous variety produces good yields of straight, smooth fruits.**

An open-pollinated variety best suited to the home garden, with abundant yields of lightly mottled dark green fruits. Pale greenish-white, firm flesh.

- Harvest at 6-8"
- Bush-type habit
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# STRAIGHTNECK SUMMER SQUASH

Days to Maturity: **50 DAYS**

**Prolific, disease resistant plants with smooth, uniform and attractive fruit.**

A breakthrough in open-pollinated summer squash; high yielding in our trials with over three months of abundant, disease-free harvest.

- Uniform shape
- Harvest at 6-7"
- Bush-type habit
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# GREENSLEEVES DILL

Days to Maturity: **45 DAYS LEAF**  
A compact, high yielding dill for leaf production.

Slow to bolt; ideal for leaf production over a long harvest window. Excellent for market growers and planting in containers. Dark green leaves are aromatic and pleasingly sweet eaten fresh or dried.

- Slow to bolt
- Good container variety
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# CARIBE CILANTRO

Days to Maturity: **55 DAYS**

Caribe has a slightly thinner stem, higher vigor and seed emergence and better bolt tolerance in the field. A great choice for greenhouse growers, or anyone who wants a long-standing cilantro.

- Good greenhouse crop
- Bolt-tolerant
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# RED ACE BEET

Days to Maturity: **60 DAYS**  
**Tried-and-true variety with great uniformity and healthy tops!**

Red Ace F1 excels for both fresh market and industry growers due to its wide adaptability and high yield potential of uniformly sized and shaped beets. Good disease tolerance and fast regrowth result in upright, glossy, bright green tops.

- Stores well
- 3" roots
- Hybrid

*For detailed growing info visit [High Mowing Seeds website](#)*

# GIANT ITALIAN PARSLEY

Days to Maturity: **70 DAYS**  
**Flat, large-leaved variety with aromatic leaves and excellent culinary quality.**

A high-yielding, very large and vigorous herb. Dependable variety with rapid regrowth that stands up well to frost. Dark green leaves on strong stems make beautiful bunches; delicious, classic flavor for seasoning.

- Bunching
- Vigorous
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](#)*

# ROGGLI RIESEN STRAWFLOWER

Days to Maturity: 75 DAYS

Bright and varied colorful flowers on tall plants are excellent for drying. A popular dried flower for bouquets and arrangements, strawflowers offer texture and color for many months after harvest. The Roggli Riesen cultivar offers a range of bloom colors including red, yellow, light pink, orange and magenta. Flowers are best cut when they are in bud.

- Strawflower
- Fresh or dried
- 30-36" tall
- Annual
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](#)*

# PACIFIC BEAUTY CALENDULA

Days to Maturity: 60 DAYS

**A bright medley of single and double orange, gold, yellow and cream-colored flowers.**

Well-branched plants with tall, straight stems great for cutting, with continuous blooms all summer. Fresh petals are beautiful in salads and as cake decorations.

- 12-24" tall
- Annual
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# POLKA DOT BACHELOR BUTTON

Days to Maturity: **90 DAYS**

A wonderful cut flower and bedding plant in diverse shades of blue, pink, white and lavender. Large 2" flowers on well-branched plants. Prefers full sun, cool temperatures and well-drained poor soil.

- Drought tolerant
- 16-24" tall
- Re-seeding annual
- Edible
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# GARNET RED AMARANTH FLOWERS

Days to Maturity: **50 DAYS SALAD SIZE**

Large, beautiful plants with impressive red spires ideal for fresh bouquets. Heat tolerant, the plants can reach towering heights and will grow steadily through the summer weather. Dramatic plumes of deep red flowers are a striking addition to flower arrangements and fresh bouquets. These brilliant plants are a stand out in a garden setting.

- Great cut flower
- Edible foliage
- 6-8 feet tall
- Annual

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# HOPI BLACK DYE SUNFLOWER

Days to Maturity: **95 DAYS**

A Hopi heirloom prized for its purple-black seeds, used especially for coloring baskets.

Seeds are good for dye but also for food or feed, and are the best for de-hulling. The massive tall flowers are classically sunflower beautiful, with yellow rays around purple-black centers. Grown for countless generations, this variety will almost certainly still be used to make dye a hundreds years from now.

- Natural dye source
- 7-11 feet tall
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# COUNTY FAIR BLEND ZINNIAS

Days to Maturity: **75-90 DAYS**

Warm-toned mix of pink, orange, purple, and gold blooms. An excellent cut flower that blooms until frost; the more you cut the more they grow! 2-5" blooms ideal for borders and bouquets. Heat and disease tolerant. Zinnias last longer if you change the water in the vase every two days and keep out of direct sunlight.

- Excellent cut flower
- Attracts butterflies

- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](#)*

# BLACK OIL SUNFLOWER

Black Oil Sunflower is an open-pollinated sunflower variety that can be grown for seed or oil production. It also works great as a warm-season cover crop for purifying soils and scavenging nutrients from deep. 110 days to maturity.

- 6-8 feet tall
- Annual

# MARIGOLD MIX

Vibrant red-orange and yellow ruffles make this French flower a garden standout. Easy to grow and reaching just 12" tall, the Marigold works well in beds or borders or when planted as a companion crop in vegetable gardens.

- Bloom time: early summer-late fall
- Space plants 6" apart.

# PARADE BUNCHING ONION

Days to Maturity: **70 DAYS**

Knocked our socks off in our bunching onion trials! We've never seen such a uniform, upright bunching onion, not a single leaf leaning over. Gorgeous rows of dark green and vigorous stalks with no bulbing at all, making cleaning easy and quick. Parade has a nice, mild onion flavor.

- Uniform size
- Upright habit
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://High Mowing Seeds website)*

# GENOVESE BASIL

Days to Maturity: **68 DAYS**

**Basil lovers unanimously recommend Genovese as the best variety for pesto!**

Plants are strong producers of dark green, glossy leaves with a characteristic spoon shape, exceptionally tender texture and distinctive sweet flavor excellent in sauces and cooking.

10-12" plants.

- Excellent for processing
- Field or containers
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://High Mowing Seeds website)*

# Salanova Head Lettuce

Days to Maturity: 53 **DAYS**

**Annual**

**Hybrid**

An ideal mix if you want to sample all that Salanova® has to offer. Use as a salad mix base for structure, loft, and yield.

## RAINBOW CHARD

Days to Maturity: **30 DAYS BABY - 60 FULL SIZE**

**Striking improved blend of red, pink, white, yellow and gold stems.**

Upright habit makes for clean production and easy harvesting. Color intensity is not as well defined early on; mostly pink, red and white at baby stage. Grow to full size for a dazzling display at market!

- Narrow to broad stems
- Upright, easy to harvest
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# SUNGOLD CHERRY TOMATO - (Esterina)

Days to Maturity: **60 DAYS**

**Addictive sweetness and good disease resistance.**

An excellent organic alternative to Sungold, with sweeter flavor, excellent crack resistance and brighter yellow color. Vigorous growth that can withstand disease pressure.

- Indeterminate & Hybrid
- Resists cracking
- .5-1 oz fruit size

*For detailed growing info visit [High Mowing Seeds website](#)*

# PINK BOAR TOMATO

Days to Maturity: **75 DAYS**

**Gorgeous wine-colored fruits with metallic green striping on vigorous vines.**

Strong plants loaded with rich, sweet juicy fruits perfect for slicing in salads or as an hors d'oeuvre with basil and mozzarella. Deep pink skin is stunning with contrasting olive stripes and luscious deep red flesh.

- Indeterminate
- 2-4 oz
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# NASTURTIUM BLEND

Days to Maturity:60 **DAYS**

**Attractive, sunny mix of yellow, orange, rose and crimson flowers on trailing plants.**

Delicate lily pad-like leaves are just as attractive as the bright flowers. Edible flowers and foliage are a gourmet treat with flavor reminiscent of peppery watercress. Perfect for hanging baskets, containers or in the garden.

- Vines grow to 10' long
- Edible flowers and foliage
- Annual & Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# ZINNIA - AZTEC SUNSET

Days to Maturity:90 **DAYS**

**Gorgeous blend of miniature, bi-color blooms ranging from deep red to cream.**

Plants are compact and highly productive, yielding excellent stems for cut flower production from midsummer through to early autumn.

- Great cut flower
- Blooms all season
- 18-24" tall
- Annual & Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# SENSATION COSMOS

Days to Maturity: 85 **DAYS**

**Sensational blend of showy white, pink, magenta and lavender blooms.**

Single flowers are 3-4" wide and are lovely in summer borders, container plantings or bouquets. Tall stems great for cutting. Cosmos require little fertility or care, making them great for beginning gardeners.

- Great cut flower
- Attracts bees
- 3-4' tall
- Annual & Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# KING OF NORTH - SWEET BELL PEPPERS

Days to Maturity: 57 **DAYS (to green)**

**Reliable set of green to glossy red fruits in short seasons.**

Improved for a higher percentage of blocky, thick-walled, early ripening peppers each with three to four lobes. Known for its ability to produce good sized peppers in short, cool seasons. Strong plants support heavy yields.

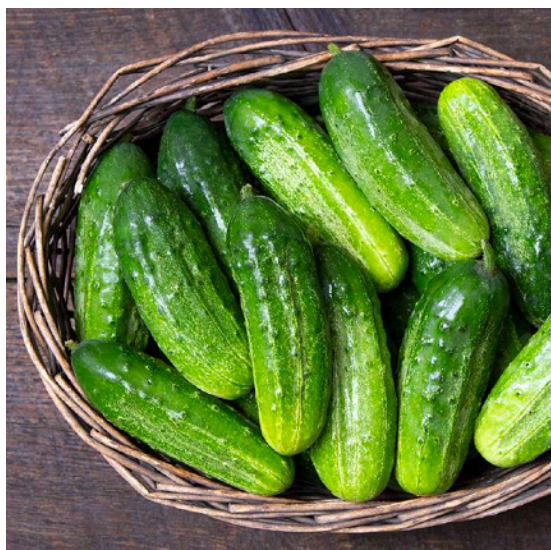

- Early
- 3-4" fruits
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](#)*

# NATIONAL PICKLING - CUCUMBERS

Days to Maturity: **52 DAYS**

**Short, thick cukes with blunt ends are perfect for pickles and delicious in salads.**

Fruits have striped, medium green skin and a slightly tapered shape to fit in a pickle jar. A heavy producer with black spines. Developed by the National Pickle Packers Association; the cuke pickle growers asked for.

- Productive
- 5" fruit
- Open-Pollinated & Heirloom

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# VALENCIA ONION

Days to Maturity: **120 DAYS**

**Versatile day-neutral sweet Spanish onion for all regions.**

Mild to sweet flavor. Excellent for bunching when young or for fresh market sales of large bulbs with warm golden-brown skin. Stores moderately well.

- Day neutral
- 4" bulbs
- Open-Pollinated

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# BELSTAR BROCCOLI

Days to Maturity: **65 DAYS**

**A versatile broccoli with excellent heat and cold tolerance and uniform, rounded heads.**

Great choice for spring, summer and fall plantings with excellent vigor. Plants are compact and produce small to medium-sized heads within a 10-14-day harvest window. Domes span 6-8" and average 1.5 lbs.

- Compact habit
- Heat tolerant
- 6-8" heads

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# HAPPY RICH - SPROUTING BROCCOLI

Days to Maturity: **35 DAYS**

**The solution for successful home garden broccoli production.**

Uniform, vigorous, dark green plants produce many jumbo-size florets that resemble mini heads of broccoli, and have an excellent, sweet, broccoli flavor.

- Compact habit
- Heat tolerant
- Many Side Shoots

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# GREEN CURLY KALE - DARKIBOR

Days to Maturity: **50 DAYS**

**Dark green with excellent flavor, this hybrid kale produces best in spring and fall.**

Similar to Winterbor, these tall plants provide high yields of densely curled greens. Vigorous plants hold well into cold weather and are suited to overwintering in mild years.

- Extra curly
- Resists yellowing
- 24-36" tall

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# TUSCAN (DINO) KALE - BLACK MAGIC

Days to Maturity: **50 DAYS**

**Uniform Lacinato-type with striking, deep blue-green leaves and excellent flavor.**

Productive plants are tidy with long, upright leaves that make for easy harvest. Plants are cold and bolt resistant and produce multitudes of beautifully savoyed leaves, perfect for full-size production or whole-plant harvest.

- Long, straight stems
- 24-36" tall
- Heirloom

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*

# SPINACH - SPACE

Days to Maturity: **50 DAYS**

**Vigorous, all season spinach with thick, glossy leaves that are smooth to slightly savoyed.**

A favorite variety of commercial growers, the plants are highly resistant to downy mildew and perform well in variable weather for all season production. Resistant to bolting with deep green leaves that maintain excellent flavor.

- All-season variety
- Upright growth habit

*For detailed growing info visit [High Mowing Seeds website](http://HighMowingSeeds.com)*
